WORK EXPERIENCE

Kitchen Expo

Flagstaff House | Boulder, CO | 09/2025 – Present

- ▶ Trained and onboarded new staff on kitchen workflow, menu knowledge, and service standards
- ▶ Coordinated communication between kitchen and front-of-house for accuracy and timing
- ▶ Maintained organization and cleanliness in a high-volume, fast-paced environment
- ▶ Managed guest allergy requests and dietary restrictions with precision

Server

Restoration Hardware | Jacksonville, FL | 02/2023 – 08/2025

- ▶ Delivered high-level customer service by anticipating needs and resolving issues quickly
- ▶ Communicated effectively across teams to ensure accurate and timely order delivery
- ▶ Maintained professionalism and accuracy in high-volume service environments

Manager

Chili's | Beaver Creek, OH | 01/2019 – 11/2020

- ▶ Led hiring, onboarding, and daily team operations for a high-volume restaurant
- ▶ Diagnosed and resolved POS system issues, ensuring uninterrupted operations
- ▶ Managed equipment maintenance and coordinated with vendors for timely repairs
- ▶ Improved customer satisfaction through proactive leadership and problem-solving

TECHNICAL PROJECTS

Daily Dev Mix — Spotify Playlist Generator

Node.js • Express • PostgreSQL • Docker • Railway • Spotify API | Team Project (6)

- ▶ Led system architecture design, defining backend structure, file tree, and application workflow
- ▶ Integrated Spotify REST API to collect user listening data and generate personalized playlists
- ▶ Designed and deployed cloud-hosted application using Docker containers on Railway

Media Sorting Automation Tool

Python | Solo Project — Client Deliverable

- ▶ Built cross-platform (Windows/macOS) Python tool to organize large media datasets
- ▶ Parsed file metadata (resolution, aspect ratio) to classify content for Instagram, YouTube, etc.
- ▶ Automated directory creation and file sorting via system-level operations at runtime
- ▶ Gathered client requirements across multiple meetings; delivered production solution

SUMMARY

Computer Science and Physics student with experience in backend development, API integration, and cloud deployment. Proven ability to design and build full-stack applications. Strong foundation in data structures, system design, and scalable software development.

TECHNICAL SKILLS

Languages

Java, Python, C++, C#, JavaScript, SQL

Web & Backend

Node.js, Express.js, REST APIs, HTML, CSS

Databases

PostgreSQL, SQLite

DevOps & Tools

Docker, Git, Railway, Linux (basic)

Concepts

Data Structures & Algorithms, OOP, System Design, SDLC

EDUCATION

University of Colorado Boulder

B.S. Computer Science & Physics

Expected December 2027

Florida State College at Jacksonville

A.A. Computer Science

December 2024

Hobart Institute of Welding Technology

AWS Structural & Pipe Certification

October 2018

Udemy

Java, Python, C#, SQLite

CERTIFICATIONS

- ▶ AWS Structural & Pipe Welding Certification
- ▶ ServSafe Manager Certification

INTERESTS

- ▶ Artificial Intelligence & Machine Learning
- ▶ Quantum Physics & Experimental Research
- ▶ Open Source Development
